#### **Summary of Legislation**

Current law prohibits hospitals from including the Healthcare Affordability and Sustainability Fee as a separate line item in its billing statements. The bill removes this restriction and allows hospitals to show the total amount of the fee as a separate line item on patient billing statements.

## **Background**

The Hospital Provider Fee was created under House Bill 09-1293 and renamed the Healthcare Affordability and Sustainability Fee under Senate Bill 17-267. The fee, which may not exceed 6 percent of net patient revenues, is assessed on hospital providers by the Colorado Healthcare Affordability and Sustainability Enterprise, then matched with federal dollars. More information can be found at: <a href="https://hcpf.colorado.gov/healthcare-affordability-and-sustainability-fee">https://hcpf.colorado.gov/healthcare-affordability-and-sustainability-fee</a>.

## **Assessment of No Fiscal Impact**

The bill allows but does not require hospitals to include a line item on patient billing statements. It is expected to have no fiscal impact on state or local governments.
